**Limited Review Report on Condensed Interim Separate Financial Statements**

**To : Board of Directors of Abu Dhabi Islamic Bank - Egypt "S.A.E"**

**Introduction**

We have performed a limited review on the accompanying condensed interim separate statement of financial position of Abu Dhabi Islamic Bank - Egypt "S.A.E" (the "Bank") as of 30 June 2025 and the related condensed interim separate statements of income, comprehensive income, cash flows and changes in equity for the six months then ended. Management is responsible for the preparation and fair presentation of these condensed interim separate financial statements in accordance with the rules of preparation and presentation of banks' financial statements and basis of recognition and measurement issued by the Central Bank of Egypt on 16 December 2008 as amended by the regulation issued on 26 February 2019 and its subsequent interpretive instructions and Central Bank of Egypt board of directors resolution on 3 May 2020 regarding issuing condensed interim financial statements and with the requirements of applicable Egyptian laws and regulations. Our responsibility is to express a conclusion on these condensed interim separate financial statements based on our limited review.

**Scope of Limited Review**

We conducted our limited review in accordance with the Egyptian standard on review engagements No. (2410) "Review of interim financial information performed by the independent auditor of the entity". A limited review of condensed interim separate financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other limited review procedures. A limited review is substantially less in scope than an audit conducted in accordance with Egyptian Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on these condensed interim separate financial statements.

**Conclusion**

In light of our limited review, nothing has come to our attention that causes us to believe that the accompanying condensed interim separate financial statements are not prepared, in all material respects, in accordance with the rules of preparation and presentation of banks' financial statements and basis of recognition and measurement issued by the Central Bank of Egypt on 16 December 2008 as amended by the regulation issued on 26 February 2019 and its subsequent interpretive instructions and Central Bank of Egypt board of directors resolution on 3 May 2020 regarding issuing condensed interim financial statements and with the requirements of applicable Egyptian laws and regulations.

# **Abu Dhabi Islamic Bank (ADIB) – Egypt – S.A.E**

## **Translation of Financial Statements originally issued in Arabic**

### **Notes to Condensed Interim Separate Financial Statements for The Period Ended 30 June 2025**

#### **1. GENERAL INFORMATION**

Abu Dhabi Islamic Bank - Egypt (formerly National Development Bank - a joint stock company) was incorporated as an Egyptian joint stock company under Law No. 43/1974 and its executive regulations in the Arab Republic of Egypt. The main office of the Bank is located at 9 Rustom Street - Garden City, Cairo. The bank is listed on the Egyptian Stock Exchange.

ADIB S.A.E. was registered in the Commercial Register on April 3, 2013 by changing the bank's name from National Development Bank to Abu Dhabi Islamic Bank (ADIB) - Egypt.

ADIB S.A.E. provides corporates, retail banking, investment and custody services in the Arab Republic of Egypt through 74 branches and delegates employing 2,633 employees on the date of the financial statements.

These condensed interim separate financial statements for the period ended June 30, 2025 were approved by the Board of Directors on August 7, 2025.

#### **2. PRINCIPLES OF PREPARING SEPARATE FINANCIAL STATEMENTS**

The separate condensed interim financial statements are prepared in accordance with the rules for preparing and presenting the financial statements of banks issued by the Central Bank of Egypt, which were approved by its Board of Directors on December 16, 2008, regarding Egyptian banks issuing interim financial statements in accordance with the rules for preparing and presenting the financial statements of banks and the principles of recognition and measurement issued by the Central Bank of Egypt on that date after its impact by applying the requirements of International Financial Reporting Standard (9) "Financial Instruments" in light of the instructions issued on February 26, 2019, as well as in light of the amended Egyptian Accounting Standards issued during the year 2015 and their amendments and the provisions of the relevant local laws and in light of the Egyptian laws and regulations related to the preparation of these separate financial statements. The bank has issued condensed financial statements based on the instructions of the Central Bank of Egypt issued on May 3, 2020. Anything not specifically provided for in the instructions of the Central Bank of Egypt shall be referred to the Egyptian Accounting Standards, which permit banks to issue condensed quarterly financial statements.

These condensed interim separate financial statements do not include all information and disclosures required for full annual separate financial statements prepared in accordance with CBE rules mentioned above and should be read in conjunction with the bank's financial statements as at year ended December 31, 2024.

In preparing these condensed interim separate financial statements, significant judgements made by the management in applying the bank's accounting policies and the key sources of estimation were the same as those were applied to the separate financial statements as at year ended December 31, 2024.

#### **3. FINANCIAL RISK MANAGEMENT**

The objectives and policies of the bank's financial risk management align with those disclosed in the separate financial statements for the fiscal year ended December 31, 2024.

## 3. FINANCIAL RISK MANAGEMENT- CONTINUED

### 3/2 Market Risk

The Bank is exposed to market risk represented in fluctuations in fair value or future cash flows arising from changes in market prices. The market risk arises from the open positions of the yield rates and foreign currencies, as each is exposed to general and private movements in the market and changes in the level of sensitivity to market rates or prices such as rates of yield and exchange rates. The Bank splits its exposure to market risk into trading and non-trading portfolios.

The market risk management is monitored by two separate teams. Market risk reports are reported to the Risk Committee of the Board of Directors and heads of operating units on a regular basis.

The portfolios of financial investments at fair value through profit or loss include those positions resulting from the Bank's direct dealing with customers or with the market, while non-trading portfolios arise primarily from managing the yield rate on assets and liabilities. These portfolios include foreign exchange risk and equity instruments arising from financial investments at amortized cost and financial investments at fair value through other comprehensive income.

### 3/2/1 Risk of fluctuations in foreign exchange rates

- The Bank is exposed to risk of fluctuations in foreign exchange rates on its financial position and cash flows. The Board of Directors has set limits on foreign exchange at the total value of each of the positions at the end of the day as well as during the day. The following table summarizes the Bank's exposure to foreign exchange risk at the end of the financial period. The following table presents the book value of financial instruments distributed in their respective currencies:

|   | EGP (in thousands) |                   |                |                    |                |                  |                    |

## 3.FINANCIAL RISK MANAGEMENT- CONTINUED

### 3/2/2 Profit Rate Risk

The Bank is exposed to the effects of fluctuations in the prevailing market yield rates, which is the risk of the cash flows of the yield rate of the future cash flows of a financial instrument due to changes in the instrument's yield rate and the risk of the fair value of the rate of yield , which is the risk of fluctuations in the value of the instrument due to changes in market yield rates , The margin of yield may increase as a result of those changes, but profits may fall in the event of unexpected movements. The Asset-Liability Committee (ALCO) sets limits on the level of variation in the re-pricing of the yield that the Bank may hold, and this is monitored daily by the Bank's risk management department.

### 3/3 Liquidity Risk

Liquidity risk is the risk that the Bank will encounter difficulties in meeting its obligations associated with its financial obligations at due date and replacing amounts being withdrawn. This could result in failure to meet the repayment obligations of depositors and to meet financing commitments.

### 3/4 Capital Management

The objectives of the Bank in managing capital, in addition to the apparent equity in the financial position, are as follows:

- Compliance with the legal requirements of capital in the Arab Republic of Egypt and in the countries in which the Bank's branches operate.
- To protect the Bank's ability to continue and enable it to continue to generate yield for shareholders and other parties dealing with the Bank.
- Maintain a strong capital base that supports growth in activity.

Capital adequacy and capital uses are reviewed in accordance with the requirements of the regulatory body (the Central Bank of Egypt in the Arab Republic of Egypt or the supervisory bodies in which the foreign branches of the Bank operate) daily through the Bank's management, through models based on Basel Committee guidelines for banking supervision. The required data are provided to the Central Bank of Egypt on a quarterly basis.

The following table summarizes the basic and supporting capital components and capital adequacy ratios.

## 3.FINANCIAL RISK MANAGEMENT- CONTINUED

### 3/5 Leverage Ratio

The Board of Directors of the Central Bank of Egypt (CBE) at its meeting dated 7 July 2015 issued a resolution approving the supervisory instructions for the financial leverage, with the banks' commitment to the minimum rate of 3% on a quarterly basis as a binding control ratio starting from 2019.

In preparation for consideration of the first support of the Basel (Minimum Capital Adequacy) in order to preserve the strength and integrity of the Egyptian banking system and to comply with the best international supervisory practices in this regard. The leverage reflects the relationship between the first tier of capital used in the standard Capital adequacy (after disposals), and bank assets (both on and off the balance sheet) are not weighted by risk weights.

The following table summarizes the Leverage ratios.

|  | 30 June 2025<br>EGP (in thousands) | 31 December 2024<br>EGP (in thousands) |
|--|------------------------------------|--|
| <b>Tier 1 capital after disposals (1)</b>  | <b>27,424,861</b>                  | <b>22,463,297</b>                      |
| Cash and due from CBE  | 21,624,634                         | 19,433,859                             |
| Due from Banks   | 88,846,136                         | 94,537,740                             |

## 4. SIGNIFICANT ACCOUNTING ESTIMATES AND ASSUMPTIONS

The Bank shall use estimates and assumptions that affect the amounts of assets and liabilities disclosed during the next fiscal period / year. Estimates and assumptions shall be continually assessed based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances and information available.

### A. Estimates:

Information on estimates used in applying accounting policies that have a material impact on the amounts recognized in the financial statements:

- **Classification of financial assets:** assessment of the business model in which the asset shall be retained and evaluated whether contractual terms of the financial asset shall result in the generating of cash flows in the form of payment of profit and installments on the outstanding balances of those assets.

### B. Uncertainty Related with Assumptions and Estimates

Uncertainties related with assumptions and estimates of significant risks that may result in material adjustments in the period ended on 30 June 2025 shall be appeared in the following notes:

- **Impairment of financial instruments:** An assessment of whether there has been a significant increase in credit risk on financial assets since the initial recognition, taking into account, the impact of future looking factors upon measuring the expected credit losses.
- **Valuation of the fair value of financial instruments:** using unobservable inputs upon measuring.
- **Measurement of defined benefit liabilities:** Key actuarial assumptions.
- **Recognition of deferred tax assets:** the existence of future taxable profits that may be benefited from deferred tax losses.

\*Due from banks include an amount of EGP 61,744,009 representing a Murabaha with a local bank corresponding to an investment-restricted Wakala due to the same bank for the same amount to invest the amount of the restricted Wakala in government debt instruments, An offset was conducted between them as they fulfill the requirements of offsetting between the assets and liabilities mentioned in the rules of preparing and presenting the financial statements issued by the Central Bank of Egypt on 16 December 2008. In 2020, the Sharia Board of the bank approved this structure, under which Abu Dhabi Islamic Bank – Egypt invests its excess liquidity by conducting international commodity Murabaha transactions with a local bank and entering into an investment agency contract. Through this contract, the local bank appoints Abu Dhabi Islamic Bank – Egypt as a restricted investment agent to purchase treasury bills and bonds on behalf of the Muwakkil. Accordingly, as mentioned, the bank's return consists of the profit from the international commodity Murabaha and the interest from the treasury bills and bonds in favor of the contracting local bank.

#### 17. FINANCIAL INVESTMENTS – CONTINUED

##### 17/3 Fair value measurement

- The Bank determines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between Market participants at the measurement date, taking into account when measuring the fair value the characteristics of the asset or liability in the event that market participants take into account the characteristics of the asset or liability. These characteristics are taken into account when pricing the asset and/or liability at the measurement date. These characteristics include the condition and location of the asset and the limitations on Selling or using the asset to view market participants.
- The bank uses the market approach to determine the fair value of financial assets and liabilities, considering that this approach uses prices and other relevant information Relevancy arising from market transactions involving assets or liabilities or a group of assets and liabilities, and that is identical or comparable. So may The Bank uses valuation techniques consistent with the market approach such as market multiples derived from comparable groups. And then it is necessary to choose The appropriate multiplier is within the scope of the use of subjective judgment, taking into account the quantitative and qualitative factors of the measurement.
- When it is not possible to rely on the market approach in determining the fair value of a financial asset or a financial liability, the bank uses the income approach to determine the value. fair value according to which future amounts such as cash flows or income and expenses are converted to a current (discounted) amount so that it reflects the Fair Value Current market expectations about future amounts.
- When it is not possible to rely on the market approach or the income approach in determining the fair value of a financial asset or a financial liability, the bank uses the cost approach in To replace the asset in its current condition (the current replacement cost), so that it reflects Determine the fair value so that the amount currently being demanded reflects the value The fair cost to a market participant as a buyer of acquiring an alternative asset with a similar benefit that a market participant as a buyer would not pay in The asset is more than the amount at which the benefit is exchanged for the asset.

**-Level 1** - Level 1 inputs are quoted (unadjusted) prices in active markets for identical assets or liabilities that the bank can accessed in the measurement date.

**-Level 2** - Level 2 inputs are all inputs other than the prices announced within level 1, that are directly or indirectly observable to the asset or liability.

**-Level 3** - Level 3 inputs are the unobservable inputs of the asset or liability.

The following table shows the change in the methods for measuring the fair value of financial assets through OCI on June 30, 2025, from the comparative figures on December 31, 2024

#### **\*Subordinated Financing at Reduced cost**

The non-interest-bearing subordinated financing represents an amount of USD 39Mn granted by Abu Dhabi Islamic Bank- UAE under a six-year investment Wakala agreement starting from December 27, 2012. In 2016, a supplementary agreement was concluded to the subordinated financing contract, extending the contract term to December 27, 2023. On March 30, 2022, another supplementary agreement was concluded to the subordinated financing contract, extending the contract term to expire on March 29, 2029 instead of December 27, 2023. The bank recorded the subordinated financing at its present value using a discount rate of 3.25%. These supplementary agreements resulted in a net charge to equity of EGP 12.465K which represents the difference between the nominal value and the present value of the financing on the date of the extension agreement.

This agreement also entails an expected profit for the Muwakill of 6.25% of the investment amount.

#### **\*\*Subordinated Financing with coupon**

#### **Abu Dhabi Islamic Bank – UAE**

\*\* On 29 December 2016 the bank was granted an additional subordinated financing of USD 9Mn from Abu Dhabi Islamic Bank-UAE under Wakala investment agreement for 7 years starting from 29 December 2016 with a profit rate equal to 6.5% from the investment amount, which is not significantly different from the market discount rate.

\*\*On 28 March 2019, the bank was granted an additional subordinated financing of USD 30Mn from Abu Dhabi Islamic Bank-UAE under Wakala investment agreement for 7 years starting from 28 March 2019 with a profit rate equals 9.88% from the investment amount, which is not significantly different from the market discount rate.

\*\*On 17 December 2024, the bank obtained an additional subordinated financing facility of USD 66.925Mn, from Abu Dhabi Islamic Bank-UAE pursuant to which it was agreed that the investment period would be 7 years, and the expected profit for the Muwakkil would be SOFR rate (SOFR three months + 3%), with the SOFR rate being updated every three months.

#### **International Finance Corporation**

\*\*On 7 July 2023, the bank obtained subordinated financing, compatible with the principles of the Islamic Shariaa, in the amount of USD 50Mn from the International Finance Corporation using Murabaha for a period of 5 years to start on 7 July 2023, with an expected profit rate equals 9.433% of the investment amount, which is not significantly different from the market discount rate.

#### 28. Adjustment of Comparative Figures from Previous Years

The comparative figures have been adjusted to reflect the appropriate reclassification. This was done by reclassifying the revenues earned from customer financing and other assets to financing and facilities granted to customers. This reclassification did not result from rescheduling operations. These adjustments did not cause any change in the bank asset quality compared to the previous year and had no material impact on the cash flows during the first half of 2024.

The following tables provide the analyses conducted on each item of the relevant financial statements:

| Cash Flow Statement   | Note No. | <u>30 June 2024</u><br>Balance before Adjustment | Adjustments        | <u>30 June 2024</u><br>Balance after Adjustment |
|---|----------|--|--------------------|---|
|   |          | EGP (in thousands)                               | EGP (in thousands) | EGP (in thousands)                              |
| Customer Financing and Facilities (Net of Expected Credit Losses) | 16       | (25,305,327)                                     | (530,543)          | (25,835,870)                                    |
| Other Assets  |          | (1,230,295)                                      | 530,543            | (699,752)                                       |

#### 29. SIGNIFICANT EVENTS

##### Economic factors

- The Monetary Policy Committee (MPC) of the Central Bank of Egypt (CBE) decided to cut the CBE's overnight deposit rate, overnight lending rate and the rate of the main operation by 325 basis points to 24%, 25% and 24.50% respectively. The committee also decided to cut the credit/discount rate by 325 basis points to 24.50%.
- S&P credit rating agency announced a stable adjustment to its outlook for Egypt's credit rating while maintaining the credit rating at "B-".
- Fitch credit rating agency announced an upgrading of Egypt's credit rating from "B-" to "B" with stable outlook.
